Story

S: Woohoo! It's story time...

K: Today's story is about Noah and the flood.

S: A long time ago, a man named Noah had a dream that a gigantic flood was coming to destroy all of humanity because they were all fighting and being mean to each other.

He had a dream that he should build a large boat and save all the innocent animals and his family.

The next morning he started building.

NOAH: My boat needs to be large enough to take 2 of every kind of animal... Two monkeys... Two horses... Two lions... Two elephants.

S: And so on and so on, the animals and the family piled on the large boat and waited. The rain fell hard. For forty days and forty nights.

Water covered the entire earth, even the highest mountains.

After 5 months, the boat came to rest on a mountain top.

S: Noah sent a dove to fly out and look for dry land. It returned with an olive branch.

NOAH: Oh, this means there are trees. We can finally get out of the boat and live on earth in peace and love and harmony.

THE END
